

Attachment 3 – Examples of Re-purposed Residential Wood Boilers as “Coal-Only” or “Light Commercial”

<http://hardyheater.com/Products/products.html>

C3

- Easy Operation With Low Maintenance
- Coal - Fuel
- 120,000 BTU's Output
- Stainless Steel
- Standard With Stainless Steel Pumps
- 10 Year Limited Warranty
- UL Safety Tested
- [View Full Product Specifications](#)
- [View Brochure](#)
- [View Owner's Manual](#)

LC300

- Light Commercial Rural
Non-Residential Applications Only
- Cordwood - Fuel
- 120,000 BTU's Output
- Stainless Steel
- Standard With Stainless Steel Pumps
- 25 Year Limited Warranty
- UL Safety Tested

CLASSIC

Classic Titanium Series Outdoor Wood Furnace

CL 4030 CL 5036 CL 6048 CL 7260 Pallet Burner

Classic CL 4030 Titanium Series

In the U.S., this appliance is for non-residential applications only.
TIME TO FILL...MORE TIME FOR YOU

MORE "YOU" TIME

Constructed of **titanium-enhanced stainless steel**, the firebox has superior corrosion resistance and excellent heat transfer performance. This allows loading the firebox for longer burn times (in some cases up to 48 hours or more*) and burning some wood that is less than perfectly seasoned.

Central Boiler recommends burning seasoned wood when possible because dry wood burns better and provides more energy for heating your home. You'll burn less wood, saving you more money and time. That is, after all, what you want your outdoor furnace to do. *Actual burn times vary based on wood types, moisture content, heat load and ambient temperature.
