Northeast Drayage Workshop  
October 13, 2010  
Federal Reserve Bank of Boston  
600 Atlantic Avenue, 4th Floor Conference Room  
Boston, MA 02210

**Agenda**

Purpose: The purpose of this workshop is to bring together port practitioners, trucking company representatives, and environmental program staff to discuss existing programs to reduce drayage-related emissions. An important additional goal is to discuss potential policies that could be put in place to reduce emissions from drayage trucks operating in the region.
