

As mentioned the webinar earlier today, the DOE's Clean Cities program tracks alternative fuels pricing by quarter. The price reports posted on the web span from Jan. 2010 back to May, 2000. A Q1 2010 price report will be published in the coming weeks.

http://www.afdc.energy.gov/afdc/price_report.html

If you need more information about alternative fuels, vehicles, or station locations in 11 LCFS states, please don't hesitate to contact a Clean Cities representative listed on the following site <http://www1.eere.energy.gov/cleancities/contacts.html>.

Best regards,

Erin Russell-Story
DOE/NETL contact for the Mid-Atlantic states of Delaware, Maryland, New Jersey, Ohio, Pennsylvania, Virginia, West Virginia
